BRICK MAILBOX WAIVER

You have informed the City that you will be installing a brick mailbox in the parkway between the public sidewalk and curb and gutter.

This is City right-of-way; sometime in the future, the City may find it necessary to excavate the parkway or maintain the street where the brick mailbox is installed. Because this is City property, the City cannot be held liable for the replacement of any part of the brick mailbox installed in the City right-of-way.

You, as the owner, are requested to sign this letter to indemnify the City for possible future damage to your mailbox that is installed within the City right-of-way.
