AGENDA MEMO  
Administrative/Finance Committee  
Meeting Date: October 7, 2024

**Issue Statement**

Motion to approve the tax levy determination for general and special purposes for Fiscal Year 2024-2025.

**Background/History**

The process for setting a tax levy is to determine how much revenue to collect from the property tax, and request that the County levy a tax to generate that amount of money. The first approval required is the tax levy determination, which takes place prior to the approval of the tax levy ordinance. Not less than 20 days prior to the adoption of the aggregate levy, the Council shall determine the amounts of money to be levied. There are also special requirements if the aggregate amount of the Corporate and Special Purpose levy is more than 105% or of the preceding year's extension and abatements.

Unfortunately, we are still subject to a timing constraint that requires us to make our initial request by the end of December, a few months before we are far enough into the budget process to make a final judgment on what we will need. In previous years the City has approached the process with an underlying assumption that the Council will not increase property taxes for the combined general corporate purpose (general fund) and special corporate levy (police pension fund).

At the same time, the Council can approve additional abatements up to the end of March. This gives the Council the ability to request a "ceiling" amount, while allowing us to review the budget early next year and consider abatements to the original request.

The attached ordinance requests a general corporate purpose (general fund=\$zero) and special corporate levy (police pension fund=\$2,506,793) for a total of \$2,506,793 which represents a 0.00% increase over this year's non-debt extension. The police pension actuary report recommended a city contribution of \$2,971,285 for FYE 26. This is a 14.72% increase (\$381,350) compared to last year's police pension contribution of \$2,589,935. In order to maintain last year's tax extension and not increase the property tax the city would contribute \$459,325 from other revenue sources. Last year, in order to maintain the previous year's levy, the city contributed \$83,297 from other revenues. It is obvious that the shortage on the tax levy will continue to grow annually. Making up the shortage from other revenues reduces our annual contribution from the general fund to the capital projects fund. If the city council considers levying the full amount for the pension contribution, and not use other revenues to make up the shortage, the owner of a home with a fair market value of \$465,200 would pay an estimated \$62.00 more in property taxes. The last property tax levy increase was in 2009, which included a 2.4% increase. If the council determines to levy an

amount equal to the full recommended pension contribution of \$2,971,285, you can still abate any amount until the end of March 2025. A draft ordinance requesting a levy of \$2,971,285 is also attached.

Additionally, a debt levy for any outstanding bonds has been filed upon the adoption of the bond ordinances. The 2023 levy amount to pay for the principal and interest on these bonds totaled \$692,825. The 2024 levy amount to pay for the principal and interest on these bonds totals \$683,100. After the water fund bond abatements, the total bond amount to be paid is \$-0-. All of the bond abatement will be presented in conjunction with our budget review. Aggregate refunds are also in the debt extension category provided by the county. This is not included in our levy but provided by the county in the final levy extension. The aggregate refund in this the 2024 extension was \$5,166.52

With respect to the tax levy for Special Service Area #1, we have a plan for maintenance expenses for these wetlands and storm water infrastructure, and the recommended revenue from this levy is proposed to be maintained at \$5,000.

### **Staff/Committee Recommendation**

Staff recommends approval of the levy determination and ordinances which:

- Set the City's 2024 general property tax levy and special corporate tax levy (police pension fund) at \$2,971,285 (which is equal to the full recommended pension contribution) and consider an abatement after the FYE 26 budget discussions.
- Set the City's 2024 Special Service Area I property tax levy at \$5,000.

### **Alternate Consideration**

- Set the City's 2024 general property tax levy and special corporate tax levy (police pension fund) at \$2,511,960.

### **Decision Mode**

The tax levy determination will be on the October 21, 2024, Council meeting for formal consideration. This final tax levy ordinance will be on the November 18, 2024, City Council agenda for formal consideration.

## MEMO

**TO:** Administrative/Finance Committee Members  
**FROM:** Bryon D. Vana, City Administrator  
**DATE:** October 1, 2024  
**SUBJECT:** Police Pension

---

The Administrative/Finance Committee discussed the police pension actuarial valuation at its last meeting. The committee asked to continue discussion on this item. The information from last month's meeting is below.

Attached is the CITY OF DARIEN POLICE PENSION FUND ACTUARIAL VALUATION AS OF MAY 1, 2024, conducted by the pension board. Treasurer Coren will provide an overview of the valuation report.

See summary below:

1. Current budget amount: \$2,589,935
2. Amount recommended for next year: \$2,971,285
3. This is approximately a 14.7% increase and a \$381,350 increase over last year's recommended contribution.
4. FYE 26 budget forecast for city's contribution : \$2,978,425

Board of Trustees  
City of Darien Police Pension Fund

Re: Actuarial Valuation Report – City of Darien Police Pension Fund

Dear Board:

We are pleased to present to the Board this report of the annual actuarial valuation of the City of Darien Police Pension Fund. The funding valuation was performed to determine whether the assets and contributions are sufficient to provide the prescribed benefits and to develop the appropriate funding requirements for the applicable plan year. Use of the results for other purposes may not be applicable and could produce significantly different results.

The valuation has been conducted in accordance with generally accepted actuarial principles and practices, including the applicable Actuarial Standards of Practice as issued by the Actuarial Standards Board, and reflects laws and regulations issued to date pursuant to the provisions of Article 3, Illinois Pension Code, as well as applicable federal laws and regulations. In our opinion, the assumptions used in this valuation, as adopted by the Board of Trustees, represent reasonable expectations of anticipated plan experience. Future actuarial measurements may differ significantly from the current measurements presented in this report for a variety of reasons including: changes in applicable laws, changes in plan provisions, changes in assumptions, or plan experience differing from expectations. Due to the limited scope of the valuation, we did not perform an analysis of the potential range of such future measurements.

The funding percentages and unfunded accrued liability as measured based on the actuarial value of assets will differ from similar measures based on the market value of assets. These measures, as provided, are appropriate for determining the adequacy of future contributions, but may not be appropriate for the purpose of settling a portion or all of its liabilities.

In conducting the valuation, we have relied on personnel, plan design, and asset information supplied by the Board, financial reports prepared by the custodian bank and the actuarial assumptions and methods described in the Actuarial Assumptions section of this report. While we cannot verify the accuracy of all this information, the supplied information was reviewed for consistency and reasonableness. As a result of this review, we have no reason to doubt the substantial accuracy of the information and believe that it has produced appropriate results. This information, along with any adjustments or modifications, is summarized in various sections of this report.

In performing the analysis, we used third-party software to model (calculate) the underlying liabilities and costs. These results are reviewed in the aggregate and for individual sample lives. The output from the software is either used directly or input into internally developed models to generate the costs. All internally developed models are reviewed as part of the process. As a result of this review, we believe that the models have produced reasonable results. We do not believe there are any material inconsistencies among assumptions or unreasonable output produced due to the aggregation of assumptions.

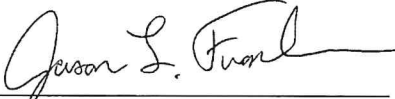

The undersigned are familiar with the immediate and long-term aspects of pension valuations and meet the Qualification Standards of the American Academy of Actuaries necessary to render the actuarial opinions contained herein. All of the sections of this report are considered an integral part of the actuarial opinions.

To our knowledge, no associate of Foster & Foster, Inc. working on valuations of the program has any direct financial interest or indirect material interest in the City of Darien, nor does anyone at Foster & Foster, Inc. act as a member of the Board of Trustees of the City of Darien Police Pension Fund. Thus, there is no relationship existing that might affect our capacity to prepare and certify this actuarial report.

If there are any questions, concerns, or comments about any of the items contained in this report, please contact us at 630-620-0200.

Respectfully submitted,

Foster & Foster, Inc.

## SUMMARY OF REPORT

The regular annual actuarial valuation of the City of Darien Police Pension Fund, performed as of May 1, 2024, has been completed and the results are presented in this report. The contribution amounts set forth herein are applicable to the plan/fiscal year ended April 30, 2026.

The contribution requirements, compared with those set forth in the May 1, 2023 actuarial report, are as follows:

|                                  |                  |                  |
|----------------------------------|------------------|------------------|
| Valuation Date                   | 5/1/2024         | 5/1/2023         |
| Applicable to Fiscal Year Ending | <u>4/30/2026</u> | <u>4/30/2025</u> |
| Total Recommended Contribution   | \$3,372,367      | \$2,949,559      |
| % of Projected Annual Payroll    | 83.3%            | 81.3%            |
| Member Contributions (Est.)      | (401,082)        | (359,624)        |
| % of Projected Annual Payroll    | (9.9%)           | (9.9%)           |
| City Recommended Contribution    | 2,971,285        | 2,589,935        |
| % of Projected Annual Payroll    | 73.4%            | 71.4%            |

As you can see, the Total Recommended Contribution shows an increase when compared to the results determined in the May 1, 2023 actuarial valuation report. The increase is mainly attributable to an assumption change, an increase in normal cost associated with an increase in active membership, the increase in amortization payment due to the payroll growth assumption, and unfavorable plan experience.

Plan experience was unfavorable overall on the basis of the plan's actuarial assumptions. Sources of unfavorable experience included an investment return of 4.98% (Actuarial Asset Basis) which fell short of the 7.00% assumption and lower than expected inactive mortality. There were no significant sources of favorable experience.

## CHANGES SINCE PRIOR VALUATION

### Plan Changes Since Prior Valuation

There were no plan changes since the prior valuation.

### Actuarial Assumption/Method Changes Since Prior Valuation

The interest rate was decreased from 7.00% to 6.80%.

| Retirement Age   | See table at end of this section. This is based on a 2022 experience study performed for the Illinois Police Officers' Pension Investment Fund.   |
| Disability Rate  | See table at end of this section. 60% of the disabilities are assumed to be in the line of duty. This is based on a 2022 experience study performed for the Illinois Police Officers' Pension Investment Fund.  |
| Termination Rate | See table at end of this section. This is based on a 2022 experience study performed for the Illinois Police Officers' Pension Investment Fund.   |

Salary Increases

See table below. This is based on a 2022 experience study performed for the Illinois Police Officers' Pension Investment Fund.

| Salary Scale |        |
|--------------|--------|
| Service      | Rate   |
| 0            | 11.00% |
| 1            | 9.50%  |
| 2            | 8.00%  |
| 3            | 7.50%  |
| 4            | 7.00%  |
| 5            | 6.00%  |
| 6            | 5.00%  |
| 7 - 11       | 4.00%  |
| 12 - 29      | 3.75%  |
| 30+          | 3.50%  |

Inflation

2.50%.

Cost-of-Living Adjustment

Tier 1: 3.00% per year after age 55. Those that retire prior to age 55 receive an increase of 1/12 of 3.00% for each full month since benefit commencement upon reaching age 55.

Tier 2: 1.25% per year after the later of attainment of age 60 or first anniversary of retirement.

Marital Status

80% of Members are assumed to be married.

Spouse's Age

Males are assumed to be three years older than females.

Funding Method

Entry Age Normal Cost Method.

Actuarial Asset Method

Investment gains and losses are smoothed over a 5-year period. In the first year, 20% of the gain or loss is recognized. In the second year 40%, in the third year 60%, in the fourth year 80%, and in the fifth year 100% of the gain or loss is recognized. The actuarial investment gain or loss is defined as the actual return on investments minus the actuarial assumed investment return. Actuarial Assets shall not be less than 80% nor greater than 120% of the Market Value of Assets.

Funding Policy Amortization Method

The UAAL is amortized according to a Level Percentage of Payroll method over a period ending in 2041. The initial amortization amount is 100% of the Accrued Liability less the Actuarial Value of Assets.

Payroll Growth

3.25% per year.

Administrative Expenses

Expenses paid out of the fund other than investment-related expenses are assumed to be equal to those paid in the previous year.

## GLOSSARY

Total Annual Payroll is the projected annual rate of pay for the fiscal year following the valuation date of all covered members.

Present Value of Benefits is the single sum value on the valuation date of all future benefits to be paid to current Members, Retirees, Beneficiaries, Disability Retirees and Vested Terminations.

Accrued Actuarial Liability is determined according to the plan's actuarial cost method. This amount represents the portion of the anticipated future benefits allocated to years prior to the valuation date.

Normal (Current Year's) Cost is the current year's cost for benefits yet to be funded.

Market Value of Assets is the fair market value of plan assets as of the valuation date. This amount may be adjusted to produce an Actuarial Value of Assets for plan funding purposes.

Actuarial Value of Assets is the asset value used in the valuation to determine contribution requirements. It represents the plan's Market Value of Assets, with adjustments according to the Actuarial Asset Method. These adjustments produce a "smoothed" value that is likely to be less volatile from year to year than the Market Value of Assets.

Unfunded Accrued Liability is the excess of the Accrued Actuarial Liability over the Actuarial Value of Assets.

Total Recommended Contribution is equal to the Normal Cost plus an amount sufficient to amortize the Unfunded Accrued Liability over a period ending in 2041. The recommended amount is adjusted for interest according to the timing of contributions during the year.

Entry Age Normal Cost Method - Under this method, the normal cost is the sum of the individual normal costs for all active participants. For an active participant, the normal cost is the participant's normal cost accrual rate, multiplied by the participant's current compensation.

- (a) The normal cost accrual rate equals:
  - (i) the present value of future benefits for the participant, determined as of the participant's entry age, divided by
  - (ii) the present value of the compensation expected to be paid to the participant for each year of the participant's anticipated future service, determined as of the participant's entry age.
- (b) In calculating the present value of future compensation, the salary scale is applied both retrospectively and prospectively to estimate compensation in years prior to and subsequent to the valuation year based on the compensation used for the valuation.
- (c) The accrued liability is the sum of the individual accrued liabilities for all participants and beneficiaries. A participant's accrued liability equals the present value, at the participant's attained age, of future benefits less the present value at the participant's attained age of the individual normal costs payable in the future. A beneficiary's accrued liability equals the present value, at the beneficiary's attained age, of future benefits.
- (d) Under this method, the entry age used for each active participant is the participant's age at the time he or she would have commenced participation if the plan had always been in existence under current terms, or the age as of which he or she first earns service credits for purposes of benefit accrual under the current terms of the plan.

## DISCUSSION OF RISK

ASOP No. 51, Assessment and Disclosure of Risk Associated with Measuring Pension Obligations and Determining Pension Plan Contributions, states that the actuary should identify risks that, in the actuary's professional judgment, may reasonably be anticipated to significantly affect the plan's future financial condition.

Throughout this report, actuarial results are determined under various assumption scenarios. These results are based on the premise that all future plan experience will align with the plan's actuarial assumptions; however, there is no guarantee that actual plan experience will align with the plan's assumptions. It is possible that actual plan experience will differ from anticipated experience in an unfavorable manner that will negatively impact the plan's funded position.

Below are examples of ways in which plan experience can deviate from assumptions and the potential impact of that deviation. Typically, this results in an actuarial gain or loss representing the current-year financial impact on the plan's unfunded liability of the experience differing from assumptions; this gain or loss is amortized over a period of time determined by the plan's amortization method. When assumptions are selected that adequately reflect plan experience, gains and losses typically offset one another in the long term, resulting in a relatively low impact on the plan's contribution requirements associated with plan experience. When assumptions are too optimistic, losses can accumulate over time and the plan's amortization payment could potentially grow to an unmanageable level.

- Investment Return: When the rate of return on the Actuarial Value of Assets falls short of the assumption, this produces a loss representing assumed investment earnings that were not realized. Further, it is unlikely that the plan will experience a scenario that matches the assumed return in each year as capital markets can be volatile from year to year. Therefore, contribution amounts can vary in the future.
- Salary Increases: When a plan participant experiences a salary increase that was greater than assumed, this produces a loss representing the cost of an increase in anticipated plan benefits for the participant as compared to the previous year. The total gain or loss associated with salary increases for the plan is the sum of salary gains and losses for all active participants.
- Payroll Growth: The plan's payroll growth assumption, if one is used, causes a predictable annual increase in the plan's amortization payment in order to produce an amortization payment that remains constant as a percentage of payroll if all assumptions are realized. If payroll does not increase according to the plan's payroll growth assumption, the plan's amortization payment can increase significantly as a percentage of payroll even if all assumptions other than the payroll growth assumption are realized.
- Demographic Assumptions: Actuarial results take into account various potential events that could happen to a plan participant, such as retirement, termination, disability, and death. Each of these potential events is assigned a liability based on the likelihood of the event and the financial consequence of the event for the plan. Accordingly, actuarial liabilities reflect a blend of financial consequences associated with various possible outcomes (such as retirement at one of various possible ages). Once the outcome is known (e.g. the participant retires) the liability is adjusted to reflect the known outcome. This adjustment produces a gain or loss depending on whether the outcome was more or less favorable than other outcomes that could have occurred.

- Contribution Risk: This risk results from the potential that actual employer contributions may deviate from actuarially determined contributions, which are determined in accordance with the Board's funding policy. The funding policy is intended to result in contribution requirements that if paid when due, will result in a reasonable expectation that assets will accumulate to be sufficient to pay plan benefits when due. Contribution deficits, particularly large deficits and those that occur repeatedly, increase future contribution requirements and put the plan at risk for not being able to pay plan benefits when due.

### Impact of Plan Maturity on Risk

For newer pension plans, most of the participants and associated liabilities are related to active members who have not yet reached retirement age. As pension plans continue in operation and active members reach retirement ages, liabilities begin to shift from being primarily related to active members to being shared amongst active and retired members. Plan maturity is a measure of the extent to which this shift has occurred. It is important to understand that plan maturity can have an impact on risk tolerance and the overall risk characteristics of the plan. For example, plans with a large amount of retired liability do not have as long of a time horizon to recover from losses (such as losses on investments due to lower than expected investment returns) as plans where the majority of the liability is attributable to active members. For this reason, less tolerance for investment risk may be warranted for highly mature plans with a substantial inactive liability. Similarly, mature plans paying substantial retirement benefits resulting in a small positive or net negative cash flow can be more sensitive to near term investment volatility, particularly if the size of the fund is shrinking, which can result in less assets being available for investment in the market.

To assist with determining the maturity of the plan, we have provided some relevant metrics in the table following titled "Plan Maturity Measures and Other Risk Metrics". Highlights of this information are discussed below:

- The Support Ratio, determined as the ratio of active to inactive members, has decreased from 79.1% on May 1, 2021 to 74.5% on May 1, 2024, indicating that the plan has been rapidly maturing.
- The Accrued Liability Ratio, determined as the ratio of the Inactive Accrued Liability, which is the liability associated with members who are no longer employed but are due a benefit from the plan, to the Total Accrued Liability, is 67.9%. With a plan of this maturity, losses due to lower than expected investment returns or demographic factors will need to be made up for over a shorter time horizon than would be needed for a less mature plan.
- The Funded Ratio, determined as the ratio of the Actuarial Value of Assets to the Total Accrued Liability, has decreased from 59.2% on May 1, 2021 to 56.4% on May 1, 2024, due mainly to unfavorable plan experience and assumption changes.
- The Net Cash Flow Ratio, determined as the ratio of the Net Cash Flow (contributions minus benefit payments and administrative expenses) to the Market Value of Assets, stayed approximately the same from May 1, 2021 to May 1, 2024. The current Net Cash Flow Ratio of -0.8% indicates that contributions are not currently covering the plan's benefit payments and administrative expenses.

### Low Default-Risk Obligation Measure

ASOP No. 4, Measuring Pension Obligations and Determining Pension Plan Costs or Contributions, was revised as of December 2021 to include a “low-default-risk obligation measure” (LDROM). This liability measure is consistent with the determination of the actuarial accrued liability shown on page 8 in terms of member data, plan provisions, and assumptions/methods, including the use of the Entry Age Normal Cost Method, except that the interest rate is tied to low-default-risk fixed income securities. The S&P Municipal Bond 20 Year High Grade Rate Index (daily rate closest to, but not later than, the measurement date) was selected to represent a current market rate of low risk but longer-term investments that could be included in a low-risk asset portfolio. The interest rate used in this valuation was 4.42%, resulting in an LDROM of \$91,912,218. The LDROM should not be considered the “correct” liability measurement; it simply shows a possible outcome if the Board elected to hold a very low risk asset portfolio. Given that plan benefits are paid over time through the combination of contributions and investment returns, prudent investments selected by the Board help to balance asset accumulation through these two sources.

It is important to note that the actuary has identified the risks above as the most significant risks based on the characteristics of the plan and the nature of the project, however, it is not an exhaustive list of potential risks that could be considered. Additional advanced modeling, as well as the identification of additional risks, can be provided at the request of the audience addressed on page 2 of this report.

## SUMMARY OF CURRENT PLAN

### Article 3 Pension Fund

The Plan is established and administered as prescribed by “Article 3. Police Pension Fund – Municipalities 500,000 and Under” of the Illinois Pension Code.

### Plan Administration

The Plan is a single employer defined benefit pension plan administered by a Board of Trustees comprised of:

- a.) Two members appointed by the Municipality,
- b.) Two active Members of the Police Department elected by the Membership, and
- c.) One retired Member of the Police Department elected by the Membership.

### Credited Service

Complete years of service as a sworn police officer employed by the Municipality.

### Normal Retirement

#### Date

**Tier 1:** Age 50 and 20 years of Credited Service.

**Tier 2:** Age 55 with 10 years of Credited Service.

#### Benefit

**Tier 1:** 50% of annual salary attached to rank on last day of service plus 2.50% of annual salary for each year of service over 20 years, up to a maximum of 75% of salary. The minimum monthly benefit is \$1,000 per month.

**Tier 2:** 2.50% per year of service times the average salary for the 48 consecutive months of service within the last 60 months of service in which the total salary was the highest prior to retirement times the number of years of service, up to a maximum of 75% of average salary. The minimum monthly benefit is \$1,000 per month.

For Tier 2 participants, the salary is capped at a rate of \$106,800 as of 2011, indexed annually at a rate of CPI-U, but not to exceed 3.00%.

#### Form of Benefit

**Tier 1:** For married retirees, an annuity payable for the life of the Member; upon the death of the member, 100% of the Member's benefit payable to the spouse until death. For unmarried retirees, the normal form is a Single Life Annuity.

**Tier 2:** Same as above, but with 66 2/3% of benefit continued to spouse.

Early Retirement

|                 |  |
|-----------------|--|
| Date            | <b>Tier 1:</b> Age 60 and 8 years of Credited Service.<br><b>Tier 2:</b> Age 50 with 10 years of Credited Service.   |
| Benefit         | <b>Tier 1:</b> Normal Retirement benefit with no minimum.<br><b>Tier 2:</b> Normal Retirement benefit, reduced 6.00% each year before age 55, with no minimum benefit. |
| Form of Benefit | Same as Normal Retirement  |

Disability Benefit

|                |  |
|----------------|--|
| Eligibility    | Total and permanent as determined by the Board of Trustees.  |
| Benefit Amount | A maximum of: <ul style="list-style-type: none"><li>a.) 65% of salary attached to the rank held by Member on last day of service, and;</li><li>b.) The monthly retirement pension that the Member is entitled to receive if he or she retired immediately.</li></ul> |

For non-service connected disabilities, a benefit of 50% of salary attached to rank held by Member on last day of service.

Cost-of-Living Adjustment

**Tier 1:**

*Retirees:* An annual increase equal to 3.00% per year after age 55. Those that retire prior to age 55 receive an increase of 1/12 of 3.00% for each full month since benefit commencement upon reaching age 55.

*Disabled Retirees:* An annual increase equal to 3.00% per year of the original benefit amount beginning at age 60. Those that become disabled prior to age 60 receive an increase of 3.00% of the original benefit amount for each year since benefit commencement upon reaching age 60.

**Tier 2:** An annual increase each January 1 equal to 3.00% per year or one-half of the annual unadjusted percentage increase in the consumer price index-u for the 12 months ending with the September preceding each November 1, whichever is less, of the original pension after the attainment of age 60 or first anniversary of pension start date whichever is later.

Pre-Retirement Death Benefit

|                      |  |
|----------------------|--|
| Service Incurred     | 100% of salary attached to rank held by Member on last day of service.   |
| Non-Service Incurred | A maximum of: <ul style="list-style-type: none"><li>a.) 54% of salary attached to the rank held by Member on last day of service, and;</li><li>b.) The monthly retirement pension earned by the deceased Member at the time of death, regardless of whether death occurs before or after age 50.</li></ul> |

For non-service deaths with less than 10 years of service, a refund of member contributions is provided.

Vesting (Termination)

|                             |   |
|-----------------------------|---|
| Vesting Service Requirement | <b>Tier 1:</b> 8 years.<br><b>Tier 2:</b> 10 years.   |
| Non-Vested Benefit          | Refund of Member Contributions.   |
| Vested Benefit              | Either the termination benefit, payable upon reaching age 60 (55 for Tier 2), provided contributions are not withdrawn, or a refund of member contributions. The termination benefit is 2.50% of annual salary held in the year prior to termination (4-year final average salary for Tier 2) times creditable service. |

Contributions

|              |  |
|--------------|--|
| Employee     | 9.91% of Salary.   |
| Municipality | Remaining amount necessary for payment of Normal (current year's) Cost and amortization of the accrued past service liability. |

# CITY OF DARIEN

## MEMO

**TO:** Administrative/Finance Committee Members  
**FROM:** Bryon D. Vana, City Administrator  
**DATE:** October 1, 2024  
**SUBJECT:** Concert and Oktoberfest Revenue and Expense Review

---

A summary of the revenue and expenses for the summer concert series (3) and Oktoberfest are attached.

In summary, the expenses for the concerts and fest are:

| DATE           | EXPENSES |
|----------------|----------|
| June 27th      | 6,434    |
| July 25th      | 6,340    |
| August 29th    | 6,750    |
| September 21st | 8,830    |

In addition, please note, these expenses do not include our attorney fees of \$7,535 to develop the intergovernmental agreements (IGAs) with the park district. Our grant agreement with the chamber allows them to retain the sponsorship revenue from the concerts, which totaled \$2,750. The Lions Club retained any sponsorship fees for Oktoberfest, which totaled approximately \$4,000. The city's FYE 25 budget for special events is \$38,000

Please contact me with any questions.

**City of Darien**  
**Minutes of the Administrative/Finance Committee**  
**September 3, 2024**

---

Chairwoman/Alderwoman Sullivan called the meeting to order at 6:00 pm. Committee members Leganski and Schauer was present. Also in attendance was City Administrator Vana and Treasurer Coren, Julie Saenz-Accounting Manager, Mayor Marchese, SIKICH auditor Kellen OMalley

**Presentation – Draft FYE 24 Annual Financial Report**

Kellen OMalley of SIKICH presented the draft Annual Financial Report for the Year Ended April 30, 2024. The final report will be presented to the City Council October 7, 2024.

**Pension Fund Report – Overview by Treasurer Coren**

Treasurer Coren provided an overview of the CITY OF DARIEN POLICE PENSION FUND ACTUARIAL VALUATION AS OF MAY 1, 2024, conducted by the pension board. The committee asked to add this item to the October Administrative/Finance Committee meeting agenda.

**FYE 24 Audit to Budget Comparison (to be distributed)**

Staff advised that upon completion of the yearly financial audit, the Administrative/Finance Committee reviews a comparison between the FYE 4-30-24 audited numbers and the FYE 4-30-24 estimated numbers included in the FYE 4-30-25 budget.

The General Fund audited fund balance exceeded the estimated balance used in the 4-30-25 budget by \$2,323,304. The City Council previously approved the *Capital Improvements Plan Guidelines*. Section 3 of the guidelines includes the following:

- Surplus from the general fund, in excess of 3 months operating reserve, will be transferred to the capital projects fund annually

Based on these guidelines, staff recommended that the Administrative/Finance Committee recommend that the City Council approve an additional FYE 25 transfer of \$2,000,000 to the Capital Projects Fund from the General Fund. This item will be scheduled for the October 7, 2024, City Council meeting. The committee unanimously recommended that the City Council approve an additional FYE 25 transfer of \$2,000,000 to the Capital Projects Fund from the General Fund.

**Other Business**

Mayor Marchese and Administrator Vana updated the committee on the next steps for city council review of the draft strategic plan. The council will discuss the strategic plan at its September 16

**Minutes – August 5, 2024** - The committee unanimously approved the minutes.

**Adjournment** - The meeting adjourned at 6:58 p.m.

Approved:

Mary Sullivan, Chairwoman \_\_\_\_\_

Ted Schauer, Member \_\_\_\_\_

Gerry Leganski, Member \_\_\_\_\_
