18. Questions, Comments and Announcements — **General (This is an opportunity for the public to make comments or ask questions on any issue – 3 Minute Limit per Person)**
19. Adjournment

A WORK SESSION WAS CALLED TO ORDER AT 7:00 P.M. BY MAYOR MARCHESE FOR THE PURPOSE OF REVIEWING ITEMS ON THE MARCH 4, 2024 AGENDA WITH THE CITY COUNCIL. THE WORK SESSION ADJOURNED AT 7:17 P.M.

Minutes of the Regular Meeting

of the City Council of the

CITY OF DARIEN

MARCH 4, 2024

7:30 P.M.

1. **CALL TO ORDER**

The regular meeting of the City Council of the City of Darien was called to order at 7:30 P.M. by Mayor Marchese.

2. **PLEDGE OF ALLEGIANCE**

Mayor Marchese led the Council and audience in the Pledge of Allegiance.

3. **ROLL CALL** — The Roll Call of Aldermen by Clerk Ragona was as follows:

Present:	Thomas J. Belczak	Gerry Leganski
	Eric K. Gustafson	Ralph Stompanato
	Joseph A. Kenny	

Absent:	Ted V. Schauer
	Mary Coyle Sullivan

Also in Attendance: Joseph Marchese, Mayor
JoAnne E. Ragona, City Clerk
Michael J. Coren, City Treasurer
Bryon Vana, City Administrator
Gregory Thomas, Police Chief
Daniel Gombac, Director of Municipal Services

4. **DECLARATION OF A QUORUM** – There being five aldermen present, Mayor Marchese declared a quorum.

5. **QUESTIONS, COMMENTS AND ANNOUNCEMENTS – GENERAL**

There were none.

6. **APPROVAL OF MINUTES** – February 20, 2024

It was moved by Alderman Stompanato and seconded by Alderman Belczak to approve the minutes of the City Council Meeting of February 20, 2024.

Roll Call: Ayes: Belczak, Gustafson, Kenny, Leganski, Stompanato,

Nays: None

Absent: Schauer, Sullivan

Results: Ayes 5, Nays 0, Absent 2

MOTION DULY CARRIED

7. **RECEIVING OF COMMUNICATIONS**

Alderman Leganski commented on communication received from Nick Cagle regarding speeding on Nantucket. He noted traffic study had been done. Alderman Leganski inquired about measures that can be taken; stated residents were pleased with placement of electronic speed limit signs on 79th Street. Director Gombac provided an update on traffic study results; he recommended flashing signs as a traffic calming measure at a cost of \$5,500.00 each.

Alderman Kenny inquired about development at Carrol Lane & Gigi Lane.

8. **MAYORS REPORT**

Mayor Marchese provided the following:

- Attended Community Leader Round Table at Argonne National Laboratory to discuss Economic Impact Report, which significantly impacts the Darien community, DuPage County, State of Illinois and the United States. He advised Council to attend future meetings.
- Congratulated Hinsdale South High School Lady Hornets who finished 4th in the State; team will be recognized at the March 18 City Council Meeting.
- Attended *A Night of Broadway* on March 1; he expressed how proud he was of Nancy Urban and the Darien Arts Council. Next performance will be *Nunsense* in June.
- Announced Citizen of the Year/Honoree dinner/dance will be held on March 8. He encouraged all to participate in food drive collection that will take place at the

venue to benefit Our Lady of Mount Carmel Food Pantry. Food Drive will be extended after the event, with donations accepted at City Hall.

9. **CITY CLERK’S REPORT**

There was no report.

10. **CITY ADMINISTRATOR’S REPORT**

Administrator Vana reviewed Abatement Ordinances.

11. **DEPARTMENT HEAD INFORMATION/QUESTIONS**

A. POLICE DEPARTMENT

Chief Thomas provided highlights from the 2023 Annual Report, which included crime, crashes, other concerns, calls for service, community engagement, honor, personnel, partnerships, organization and administration. He addressed Council question.

Mayor Marchese stated Direct Connect eNews will feature QR code to easily access Darien Police Department Annual Report 2023.

B. MUNICIPAL SERVICES – NO REPORT

Director Gombac announced Tony & Tina’s Deli at 8133 Cass is now open for business.

12. **TREASURER’S REPORT**

A. WARRANT NUMBER 23-24-21

It was moved by Alderman Kenny and seconded by Alderman Leganski to approve payment of Warrant Number 23-24-21 in the amount of \$81,349.74 from the enumerated funds, and \$283,110.87 from payroll funds for the period ending 02/22/24 for a total to be approved of \$364,460.61.

Roll Call:	Ayes:	Belczak, Gustafson, Kenny, Leganski, Stompanato
	Nays:	None
	Absent:	Schauer, Sullivan

Results: Ayes 5, Nays 0, Absent 2
MOTION DULY CARRIED

13. **STANDING COMMITTEE REPORTS**

Administrative/Finance Committee – Clerk Ragona announced the Administrative/Finance Committee meeting is scheduled for April 1, 2024 at 6:00 P.M.

Municipal Services Committee – Chairman Belczak announced the next Municipal Services Committee meeting is scheduled for March 25, 2024 at 6:00 P.M.

Police Committee – Chairman Kenny announced the Police Committee meeting is scheduled for March 18, 2024 at 6:00 P.M. in the Police Department Training Room.

14. **QUESTIONS AND COMMENTS – AGENDA RELATED**

There were none.

15. **OLD BUSINESS**

There was no Old Business.

16. **CONSENT AGENDA**

Mayor Marchese stated Item A was removed during the Work Session.

It was moved by Alderman Belczak and seconded by Alderman Stompanato to approve by Omnibus Vote the following items on the Consent Agenda:

A. ORDINANCE NO. O-02-24 AN ORDINANCE APPROVING A FINAL PLAT OF SUBDIVISION AND GRANTING A SPECIAL USE AND VARIATIONS FROM THE DARIEN ZONING ORDINANCE (PZC2024-01: INDVESTIA DARIEN LLC, 7409 CASS AVENUE)

B. RESOLUTION NO. R-21-24 A RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT FOR THE 2024 LANDSCAPE MAINTENANCE SERVICES WITHIN THE 75TH STREET RIGHT OF WAYS, CLOCK TOWER AND 8 ENTRANCE WAY PLANTING BEDS IN AN AMOUNT NOT TO EXCEED \$38,200.00 BETWEEN THE CITY OF DARIEN AND JC LANDSCAPING & TREE SERVICES

C. CONSIDERATION OF A MOTION TO AUTHORIZE A CONTINGENCY WITH JC LANDSCAPING & TREE SERVICES IN THE AMOUNT OF \$5,500 FOR REPLACEMENT OF PLANT MATERIALS AND PLANT ENHANCEMENTS FOR THE 2024 LANDSCAPE MAINTENANCE SERVICES, PENDING BUDGET APPROVAL

From GCEP's Executive Leadership

Dear Partners and Friends,

One year ago, we embarked on a remarkable journey with the launch of the Greater Chicagoland Economic Partnership (GCEP). Our mission was clear - to unite and showcase the global competitiveness of the Chicagoland region, leveraging our diverse talent, advanced infrastructure, renowned institutions, and top-ranked industries. Today, we proudly share with you the GCEP's 2023 report, a testament to our collective efforts and an invitation for you to join us as we further define the future of the region.

In just twelve months, the GCEP has emerged as a dynamic force. Our success lies in the active collaboration among county partners across the region. From international engagements like the Collision Conference in Toronto and the Chicago Sister Cities International 50-year anniversary business delegation trip to Japan, to local initiatives such as Chicago DeepTech Week and the Chicago Venture Summit series—we have cultivated a thriving ecosystem that extends far beyond our municipal or county borders. At the time of the launch, Cook County President Toni Preckwinkle remarked, "We all do better when we all do better." This continues to represent the spirit of

this collaboration. With equity and inclusivity as the cornerstone of economic development, we are contributing meaningfully to the economy throughout Chicagoland in many ways, including:

- **The GCEP is growing the regional economy. In the last year, 8,576 jobs were created or retained because of GCEP, which generated \$715.9 million in direct and indirect worker earnings.**
- **Sharing strategic initiatives, programming, and public funding opportunities which has led to increased trust across partners in the region, and a more collaborative approach to drive growth.**
- **Providing data driven analysis and research that will continue to define future opportunities for economic growth across the city and seven county region.**

In March 2023, Site Selection Magazine named Chicagoland the Top U.S. Metro for Corporate Relocations and Expansions, consecutively for ten years, and named four GCEP counties among “America’s Best Counties.” Last year, the WBC Research Center published the first-ever Regional Asset Map—a comprehensive guide that provides vital economic data. WBC’s support of GCEP includes producing monthly economic dashboards, quarterly updates, opinion pieces, and other vital assets. Furthermore, WBC’s leadership continues to enthusiastically deliver presentations, participate in panel discussions, and advocate for the strengths of Chicagoland as a prime business destination to businesses throughout the world.

We invite you to become a champion of the greater Chicagoland region. Consider this report as not just an overview, but a call to action. Here is a digestible glimpse into the strides we’ve made, the milestones we’ve achieved, and the vision that will continue to propel us forward. As a champion, you have the power to amplify and talk about the competitive advantages of Chicagoland. Join us as we solidify Chicagoland’s reputation as a global hub for innovation and the epicenter where the future of business is incubating.

Chief Growth Officer of
World Business Chicago

Executive Summary

The Greater Chicagoland Economic Partnership (GCEP) is a regional strategic economic development alliance formed through extensive discussions with cross-sector stakeholders over the course of three years (2020-2023). Spearheaded by the Brookings Institute and the Chicago Metropolitan Agency for Planning, with support from the Searles Fund at the Chicago Community Trust, GCEP aims to drive inclusive economic growth in the Chicagoland region.

GCEP Overview

In its first year, GCEP efforts successfully created or retained over 8,500 direct and indirect jobs in the region, which generated over \$715 million in earnings for workers. The partnership focuses on promoting the region's assets, including transportation infrastructure, diverse talent, key industries, and the innovation ecosystem, including universities, incubators, and startups. Partners include Cook, DuPage, Kane, Kendall, Lake, McHenry, and Will counties, along with the City of Chicago and World Business Chicago.

Chicagoland's Economic Landscape

The WBC Research Center led the development of a regional economic asset map and accompanying report, "Chicagoland's Economic Landscape." These tools identified the region's strengths and inputs for economic growth and prosperity, across categories like human capital, innovation, and infrastructure.

Regional Business Development

GCEP's focus on "Pro-Chicagoland Decisions" led to 64 successful decisions, 40 regional leads shared, and 24 connections made to county partners in its first year. This resulted in 8,576 jobs that were created or retained and over \$715.9 million in direct or indirect worker earnings. GCEP played a crucial role in significant business decisions, such as S&C Electric's expansion, Upside Foods' entry, SyBridge Technologies' consolidation, Flender Corporation's expansion, Ravago's Midwest distribution center, Henry Broch Foods' headquarters expansion, General Kinematics' presence in Crystal Lake, and Lion Electric's Joliet factory.

In conclusion, GCEP's first year demonstrated successful collaboration and impactful economic development, setting the stage for sustained growth and regional prosperity in the Chicagoland area. The following report more thoroughly describes the collaboration and impact.

Overview of GCEP & Membership

Engaging the Community

Over the course of three years (2020 - 2023) of discussions with 75+ cross-sector stakeholders, through interviews and roundtables, intent was assessed for regional collaboration and past efforts analyzed, focusing on key activities and differences from which GCEP Partners could align. The Brookings Institute and the Chicago Metropolitan Agency for Planning, with support from the Searles Fund at the Chicago Community Trust, spearheaded this initiative with the support of the county board chairs and the mayor of Chicago, creating a timeline and helping to draft the first-ever Regional Statement on Economic Cooperation.

Overview of GCEP

The GCEP is a regional strategic economic development alliance comprising Chicago and the surrounding seven most populous counties, to drive inclusive economic growth. In the first year of this partnership, GCEP has successfully pitched the region to attract and retain businesses, including Chicago-based companies such as S&C Electric Company, national companies such as UPSIDE Foods, with headquarters in San Francisco, and international companies, including Ravago, which recently broke ground in Kendall County.

The GCEP focuses on promoting the region's many assets, including transportation infrastructure, diverse talent, key industries, and the innovation ecosystem, including universities, incubators, and startups. The partners have focused, as well, on coordinating international engagement including sharing and optimizing resources like market research and asset mapping to achieve greater efficiency and scale.

The initial three year agreement includes the following partners: Cook County Bureau of Economic Development, Choose DuPage, Kane County Development & Community Services Department, Kendall County Government, Lake County Partners, McHenry County Economic Development Corporation, Will County Economic Development Corporation, the City of Chicago, and World Business Chicago as project sponsor.

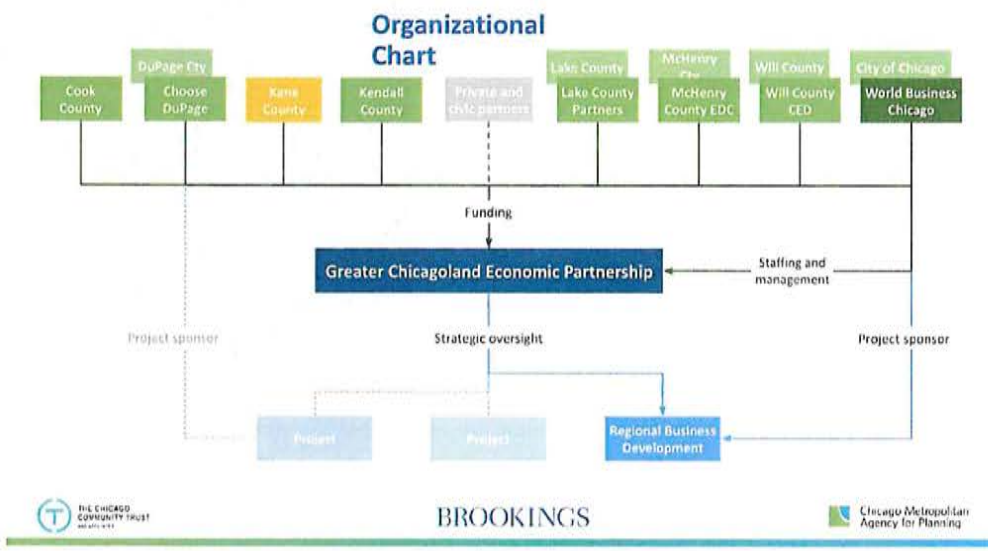

Pilot Activation Areas

Initial areas of interest for the Partnership were identified through the discussions between key GCEP stakeholders and World Business Chicago. During the course of these discussions, the following essential service offerings were identified as core competencies:

Among the key deliverables include the Regional Chicagoland Economic Report, an Interactive Regional Asset Map, Letters of Support for Public Sector Investment Opportunities, and Global Strategic Engagements and Inclusion.

- **WBC business development for pro-Chicagoland decisions;**
- **WBC Research Center services (e.g., request for information responses and regional asset development);**
- **WBC Public Sector funding opportunities; and,**
- **WBC Innovation & Venture programming inclusion.**

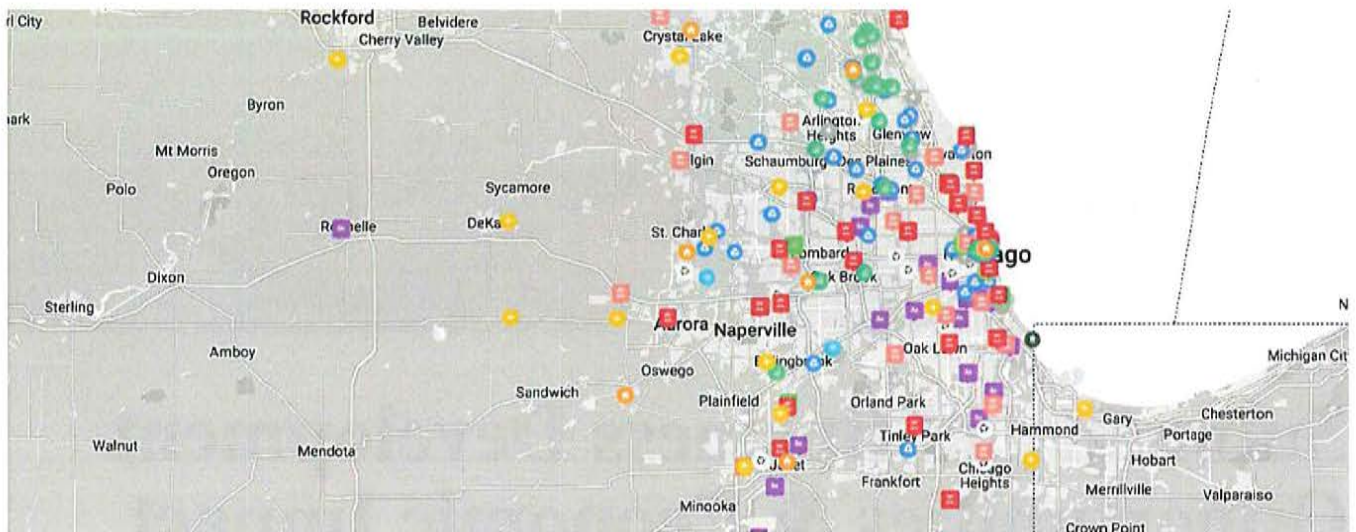

Chicagoland's Economic Landscape Report: Summary & Asset Map

In September 2023, the World Business Chicago Research Center released the Chicagoland's Economic Landscape Report and the first-ever Greater Chicagoland Region Asset Map, an interactive tool highlighting Chicagoland's strengths.

- 1. Human capital** - labor force of over 4.9 million workers
- 2. Industry base & supply chains** - more diverse, more resilient, and more regional than other comparable metro areas
- 3. Anchored by world-renowned R&D institutions**, including Argonne National Laboratory and Fermilab
- 4. Infrastructure** - an extensive freight and transportation network, including O'Hare International Airport (the most interconnected airport internationally)
- 5. Global reach** - with both a global population and global reputation as a major trade hub
- 6. Natural assets** - Great Lakes, where 84% of the nation's freshwater sits
- 7. Business environment** - top ranked as a leading business and innovation ecosystem
- 8. Access to capital** - the GCEP region is a leader in both private and public investment
- 9. Size** - the Chicago region is the nation's third largest economy and is among the top 20 global economies
- 10. Diversity** - the region has the most diverse economy in the U.S., making it both more resilient against economic challenges and a strong global competitive advantage
- 11. Resilience** - the region has the right combination of diversification, adaptability, environmental policy, and supportive social systems that position us to thrive now and in the future
- 12. Manufacturing Muscle** - the region is the most diverse manufacturing ecosystem in the U.S.
- 13. Innovation** - the region ecosystem is composed of established industries, startups, and research institutions that contribute to its unique identity
- 14. Cost** - the region has more affordable real estate and cost of living, especially compared to the U.S. coasts and similarly-sized, globally-connected metro areas in the country

Regional Asset Map Highlights

This first-of-its-kind asset map identifies the Chicagoland region's economic drivers, including transportation, education, and other vital assets. As Hannah Loftus, WBC's Research Center Regional Director stated, "it's a declaration of our region's rich economic legacy and promising future."

- Economic Scale & Accessibility:** Ranked as the nation's third-largest economy and within the top 20 global economies, the Chicagoland region surpasses many nations in its economic output. It boasts unparalleled access to vast labor, customer, and supply chain resources.
- Economic Diversity & Resilience:** Unlike metro areas dominated by a single industry, the Chicagoland region boasts the U.S.' most diversified economy. This versatility safeguards against economic downturns and places the region favorably for global market trends and resilience against U.S. and global economic downturns.
- Manufacturing Leadership:** With a strong footing in 13 out of 21 manufacturing sub-sectors, the Chicagoland region stands as the nation's most diverse manufacturing hub. This diversity drives innovation, attracts investments, and ensures stability even amidst economic fluctuations.
- Innovation Ecosystem:** The blend of established industries, startups, universities, and top-tier research institutions underscores Chicagoland's unique tech identity, fostering a culture of collaboration and technological advancement.
- Affordability & Global Connectivity:** The region offers world-class business infrastructure and a globally connected environment at competitive costs, with real estate and living expenses more affordable than many major coastal metros.

Summary of Business Development Opportunities & Economic Impact Profile of Key Wins

The Chicagoland Region's Approach

Three key performance indicators were identified by the GCEP and have shaped the three-year commitment from the surrounding counties for their buy-in and support. In addition to Pro-Chicagoland Decisions and business prospecting leads, there was also a focus on regional connections that were made across county partners to ensure a regional approach to economic development.

The two original deliverables, decided by the GCEP, to occur over the first three-year phase include:

1. **500 Regional Leads shared.**
2. **150 Pro-Chicagoland Decisions.**

In its first year of progress, the GCEP has hit the ground running, with 64 Pro-Chicagoland Decisions in 2023, and 40 regional leads shared between counties. Additionally, the GCEP partnership is working by creating 24 connections between the participating partners and local businesses as these introductions were made to county partners. In a year full of macro-economic uncertainty, this collaboration has proved fruitful and has made economic impact across the region.

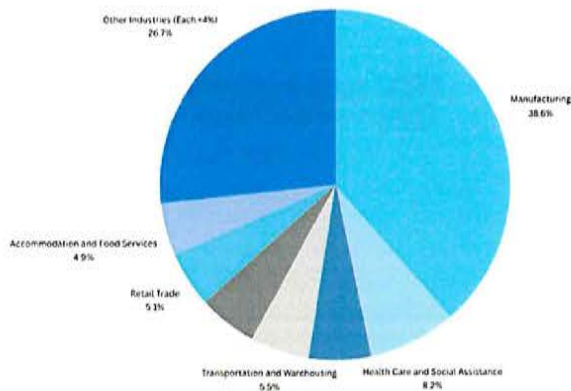

The significance to Chicagoland is measurably impressive. Business decisions to relocate or expand in the region directly influenced by GCEP efforts resulted in over \$715 million in worker's earnings and over 8,500 jobs.

GCEP Economic Impact	Jobs	Earnings
Direct <small>(jobs created by companies relocating, expanding, or being retained)</small>	2,844	\$278.9 million
Indirect <small>(jobs created by the increased economic activity of new direct jobs)</small>	5,732	\$437.0 million
Total	8,576	\$715.9 million

Direct Jobs Created by GCEP Wins by Sub-Industry

GCEP Total Impact by Industry

GCEP Total Impact by Job Type

In 2023, GCEP efforts were successful in attracting and retaining manufacturers in the region – highlighting the sustained and growing importance of industry in Chicagoland. Nearly half of the impact resulted from the establishment of Lion Electric’s electric vehicle manufacturing center in Will County, with food, medicine, and advanced equipment manufacturers comprising the other half.

However, the indirect impact is felt across industries throughout the region. In addition to jobs directly created in manufacturing, increased demand in the local supply chain created jobs in other manufacturing sub-industries, professional services, and transportation & warehousing. An influx of workers also created demand for local services like healthcare, retail, and restaurants.

Cook County (Palatine) - S&C Electric

Retaining and Growing Talent in the Region

Company Name: S&C Electric Company

Industry: Manufacturing

Job Impact: 200 direct new jobs, creating 369 indirect jobs and \$50.6 million in total new earnings for workers.

About the Company

S&C Electric Company is a global provider of equipment and services for electric power systems. The company specializes in the switching, protection, and control of these systems, and has been an essential part of the electrical grid that brings power to homes and businesses around the world.

Since its inception in the early 1900's, S&C has continued to innovate and champion unique technology to provide protection against power outages. Today, it sells internationally and is an industry leader in best practices for product development.

GCEP Impact

The company has grown tremendously, with over 2,000 jobs in the Chicagoland region. In order to accommodate this growth, S&C Electric considered expanding out of state. GCEP partners took initiative and identified a 275,000 SF expansion space in Palatine, IL that met the needs of the company. The new facility is expected to create approximately 200 production and engineering jobs, with full occupancy and production startup expected in early 2024.

DuPage County (Itasca) - SyBridge Technologies

Consolidation and Expansion

Company Name: SyBridge Technologies

Industry: Manufacturing - Life Sciences

Job Impact: 50 new jobs and 100 jobs retained in the metro area, supporting 301 indirect jobs and \$46.2 million in earnings for workers.

About the Company

SyBridge Technologies is a Michigan-based company that provides value-added design through tooling and molding, as well as manufacturing solutions across a wide range of industries.

Since its inception in 2019, SyBridge Technologies has grown its production capabilities and size as a disruptive innovator in the industry. Due to its presence in the Life Sciences industry, the Chicago region appealed to the company early on, and it opened its Fulton Market location as an initial step. In early 2023, the company shifted its focus and brand identity to becoming a global technology-driven enterprise built on innovation, expertise, and

service excellence that leading brands around the world could trust in this digital age.

GCEP Impact

With the support of GCEP partners, Choose DuPage led the charge on retention and expansion of this company. Thanks to this initiative, in addition to unveiling a showroom, SyBridge Technologies has decided to relocate its headquarters from Southfield, Michigan and consolidate its Fulton Market location in order to open a location in Itasca. The company will hire and/or relocate (from Michigan) some 50 jobs, in addition to moving 100 employees from the Fulton Market location.

Kane County (Elgin) - Flender Corporation

Expanding An International Turbine Producer

Company Name: Flender Corporation

Industry: Manufacturing

Job Impact: 50 new jobs and 140 jobs retained in the metro area, supporting 334 indirect jobs and \$53 million in earnings for workers.

FLENDER

About the Company

Flender Corporation is a leading global manufacturer of mechanical gears for industrial applications, including wind turbines. It has a reputation for the highest performance, innovation, quality, and reliability of mechanical and electrical components. Its drive components account for 30 percent of wind turbines in over 33 countries.

Flender has had a presence in Illinois since 1976, with its main headquarters in Bocholt, Germany. Globally, the company has expanded to over 9,000 employees. It has been serving the Americas from its office in Elgin since opening in the Midwest and offers high quality products throughout the region.

GCEP Impact

With the support of Kane County, GCEP was able to work with the Governor's Office, Illinois Department of Commerce & Economic Opportunity, and Flender Corporation to expand its manufacturing facility for wind and industrial drivetrains - creating 50 new jobs and retaining 140 in the region.

Kendall County (Montgomery) - Ravago

Global Talent Attracted to Chicagoland

Company Name: Ravago

Industry: Manufacturing - Plastic

Job Impact: 91 new jobs and 59 jobs retained in the metro area, supporting 351 indirect jobs and \$43.5 million in earnings for workers.

About the Company

Ravago is a Belgian based plastic-producing company with headquarters in Luxembourg. The company is active in polymer and chemical distribution, building materials, recycling and compounding of plastic.

Ravago was founded in the 1960's with the purpose of recycling production waste from the plastics producing petrochemical companies. It quickly became an innovator in the space and expanded globally.

GCEP Impact

GCEP partners brought together community and workforce resources and assisted with incentives to attract Ravago in 2023. Ravago committed to developing its 204-acre Midwest distribution center in Montgomery, IL, bringing 150 jobs to the region (including a retention of 40). The Ravago groundbreaking occurred on October 18, 2023.

Lake County (Waukegan) - Henry Broch Foods

Expanding and Retaining Legacy Brands

Company Name: Henry Broch Foods
Industry: Manufacturing - Food and Beverage
Job Impact: 150 new jobs and 250 jobs retained in the metro area, supporting 1,049 indirect jobs and \$118.6 million in earnings for workers.

About the Company

Henry Broch Foods is one of the largest U.S.-based international food ingredient, processing and co-packing companies in the world. The company sources quality natural ingredients from growers, and its suppliers produce vegetables, fruits, herbs, spices, and natural colors that have been concentrated, dehydrated, extracted, or pasteurized.

Henry Broch Foods has a long history in Lake County, and especially in Waukegan. This family-owned company was founded in 1941 and has expanded rapidly since its inception. Today, it is a global-facing Chicagoland company and one that will remain in the region.

GCEP Impact

GCEP partner, Lake County Partners led the charge on working closely with the company's leadership to help it expand its existing Waukegan Headquarters by adding 160,000 square feet of new production, robotic warehousing, and distribution space. Not only is the company retaining 400 existing jobs, it is adding an additional 150 new jobs in Lake County. This project represents a capital investment of nearly \$40 million.

McHenry County (Crystal Lake) - General Kinematics

Manufacturing Expansion

Company Name: General Kinematics

Industry: Manufacturing

Job Impact: 15 direct new jobs, creating 15 indirect jobs and nearly \$2.6 million in total new earnings for workers.

About the Company

General Kinematics is the premier manufacturer of vibrating equipment for the processing of bulk materials. It leads in design leadership – with cutting-edge Two-Mass technology, simplified spring reactor systems, and the rugged and reliable equipment construction available. Scores of application tailored technical advancements have propelled General Kinematics' equipment to excel in the most challenging environments.

General Kinematics was founded in 1960, having over six decades of experience in the industry and has seen several years of growth, including acquiring three companies (Cyrus Vibrating Equipment, Tuffman Equipment, and

Foundry Equipment Company) and launching a systems-focused brand.

GCEP Impact

GCEP Partner, McHenry County Economic Development Corporation, provided support for the completion of a 42,000-square-foot expansion of GK's primary manufacturing space. The new area includes high bay ceilings for 80-ton cranes, additional space for capital equipment, and storage. Including the new addition, General Kinematics' facility now spans 262,000 square feet.

Will County (Joliet) - Lion Electric

EV as a Priority

Company Name: The Lion Electric Company

Industry: Manufacturing

Job Impact: 1,400 direct new jobs, creating 2,669 indirect jobs and over \$324.6 million in total new earnings for workers.

About the Company

The Lion Electric Company is an innovative manufacturer of zero-emission vehicles that designs and manufactures all-electric school buses and urban trucks. It is a leading OEM in transportation electrification in North America, specializing in all components of its supply chain.

Originally started in Canada in 2008, the Lion Electric Company grew quickly in the electric-bus manufacturing space, becoming a leader in the zero-emission niche. After going public in 2020, Lion continued to expand its manufacturing capabilities in North America.

GCEP Impact

GCEP partner, Will County Center for Economic Development worked closely with the State of Illinois and the Governor's Office to secure Lion Electric's commitment to opening its new Joliet factory earlier this year. With the push to prioritize investing in clean energy through the Climate and Equitable Jobs Act, this was a significant win for the Chicagoland region.

Strategic Initiatives & Partnerships

As a way to further interact with the Greater Chicagoland region, an additional key emphasis in year one of the GCEP was engaging the partners and its respective county stakeholders in events throughout the region; working strategically to secure economic development opportunities.

There were 45 invitations extended to partner members in 2023, which helped lay the foundation for collaboration across the partnership.

This included the annual World Business Chicago International Gala, company visits like Valqari (pictured above), and other engagements.

State Department Visit to the Chicagoland Ecosystem

In August, the GCEP co-hosted Daniel Ricchetti of the U.S. State Department, in a discussion of the opportunities to engage in foreign policy at the local level. Among the highlights were conversations about the region's global leadership in quantum technology and manufacturing innovation. The visit included tours with regional partners of AeroQ, Quantum Hardware, and mHUB (manufacturing and hard tech innovation center). Representatives from Cook County, Lake County Partners, Will County CED, Choose DuPage, McHenry County EDC, and World Business Chicago had the opportunity to pitch on the innovative ecosystem.

GCEP Partners attend the Chicago-Japan Delegation

In October 2023, a 30+ person delegation of business and civic leaders traveled to Osaka, Japan to celebrate the 50-year anniversary of the Osaka-Chicago Sister Cities' international relationship, meeting with 70+ Japanese companies interested in expanding or investing in the United States, strengthening ties with Japanese-based Chicagoland companies.

WBC Research Center Initiatives

Through GCEP, the WBC Research Center tells the region’s data-driven economic narrative, including Chicagoland’s incredible value proposition. The Research Center leads data analysis for regional partners to better understand and improve upon the region’s economy, including identifying growth drivers, opportunities, and risks in key industries. In addition to the Regional Asset Map, key 2023 accomplishments include:

GCEP Economic Dashboard

The economic dashboard shares up-to-date economic indicators for the Chicago metropolitan area. The dashboard describes the size of the Chicagoland regions economy, how the region compares to selected leading metros, and continued improvement over pandemic-related slowdowns.

Regional Requests for Information

In 2023, the WBC Research Center completed over 70 requests for information from county and regional partners. These strategic insights helped attract businesses and informed economic and community development tactics - deliverables ranged from macroeconomic data, to economic impact analyses, to industry and supply chain analyses, and more.

Regional Collaboration

In 2023, the WBC Research Center was honored with the Council for Community and Economic Research Community, Economic, and Workforce Research Award for fostering collaborative community and regional initiatives with the Greater Chicagoland Economic Partnership. Already a trusted information resource for the Chicagoland area, the WBC Research Center leveraged its analytical capacity to align county partners and foster cooperation based on shared regional data. This collaboration drove the development of a shared baseline for future analysis and economic development strategy.

Public Sector Funding Opportunities

Public sector funding opportunities was a key activation area identified by GCEP partners. In support of this work, the Public Sector Investment Strategy (PSIS) team from World Business Chicago provides insights and further information about Federal funding opportunities. These initiatives have been selected to competitively position the region for additional federal funding.

One of the regional opportunities the PSIS team spearheaded through the GCEP included the Clean Tech Economy Coalition's proposal for the Department of Energy's Manufacture of Advanced Key Energy Infrastructure Technologies Prize (MAKE IT) under the Strategies Track.

The partnership pledged its support for this initiative, providing a GCEP letter of support under the guidance and strategy of the PSIS team. This project has been led by mHUB Chicago, a center for physical product development and innovation, and will establish a clean technology manufacturing cluster in the greater Chicago region, designed to lead the country in commercialization of clean energy technologies and drive grid resilience and equitable economic growth. mHUB was awarded the Phase 1 Strategies Track grant, and upcoming work and strategy with GCEP will be done to finalize a concept map for a grid modernization manufacturing facility.

Key funding mechanisms that opened new opportunities in 2023—with more expected in 2024— include:

- **CHIPS and Science Act (CHIPS):** Designed to boost US competitiveness, innovation, and national security; supports investments in domestic semiconductor manufacturing, R&D and commercialization of new technologies, and creation of regional tech hubs.
- **Inflation Reduction Act (IRA):** Aims to build a new clean energy economy and address the primary drivers of climate change, while creating good-paying jobs and promoting environmental justice.
- **Infrastructure Investment and Jobs Act (IIJA):** Supports opportunities to enhance infrastructure, expand access to clean drinking water, and promote high-speed internet access, while advancing environmental justice and investing in underserved communities.

Innovation & Venture Collaboration

World Business Chicago’s Innovation & Venture team has expanded its primary programming to engage the greater Chicagoland community, including:

- **Two Chicago Venture Summits:**
2,000+ startups, investors, and sector executives attended Chicago Venture Summits - Future-of-Food (May 2023) and Future-of-Climate-Tech (October 2023), with GCEP as Innovation Sponsor. Cook County President Toni Preckwinkle delivered remarks on behalf of GCEP.
- **Regional Trips:**
GCEP joined the Innovation & Venture team on regional tours of Fermilab and Argonne National Laboratory, as well as the Chicago Quantum Exchange and mHUB.

Chicagoland Region: Look Forward

After a successful first year of partnership, the GCEP has built and maintained momentum across all areas of initial activation. More importantly, it has begun to lay a strong foundation of trust and a spirit of collaboration across county lines. With this in mind, the GCEP is eager to continue developing this dynamic foundation of accomplishments and adding to the region as a whole, by attracting new opportunities, retaining talent, and bringing diversity to Chicagoland that will showcase it as a regional economic power.

As we extend into the second year of the Greater Chicagoland Economic Partnership, we are excited to introduce Kevin Considine as our Vice-Chair for the partnership, who will bring his notable experience and knowledge to the group. He will join Chair Bedalov in facilitating the governance and expectations of the counties, as well as continuing to build upon the success of 2023.

Looking forward to 2024, we are excited to expand upon the foundation of early success, and extend our efforts across the five areas of activation:

- **Business Development that results in new investment, as well as jobs retained and created**
- **Strategic initiatives and opportunities that strengthen collaborative efforts**
- **WBC Research Center services and data analysis used to shape strategy**
- **Public Sector funding opportunities**
- **Innovation and Venture programming and inclusion**

Appendix

Co-Chairs of the GCEP

Annually, elections bring forth a Chair and Vice-Chair, both eligible for two successive terms. In 2023, Greg Bedalov, President & CEO of Choose DuPage, served as the first Chairperson of the GCEP, encompassing meeting coordination and approval of motions, letters of support, and the development of key business opportunities in the region. Kevin Considine, President & CEO of Lake County Partners, has assumed the role of Vice-Chair in 2024, upon quorum of the GCEP at the Annual End-of-Year meeting in December 2023.

GCEP Annual End-of-Year Meeting, held at CineCity Chicago in December 2023

Darien Police Department

Monthly Report

February 2024

Red Flag Laws

Several years ago in response to issues of firearms use the state implemented a law that’s commonly referred to as red flag laws. Meaning a person has demonstrated some type of issue – criminal, mental, etc. that indicates that their ability to own and possess a firearm should be denied or suspended for a period of time or revoked.

In Illinois a Firearms Owners Identification (FOID) card is needed to purchase a gun and ammunition. I would like to detail how the Darien Police Department enforces the process.

Below is a graph showing the results of suspended / revoked FOID cards being reported to the Darien Police Department. We monitor and maintain data on suspended / revoked FOID cards since the inception of the program.

There is a significant spike in 2019, which the detective sergeant providing the information believes it can be attributed to measures implemented by the Illinois State Police (ISP) following the Henry Pratt Company shooting in Aurora. The number of suspensions / revocations have been gradually increasing since 2019. This may be to heightened enforcement and increased mental health education and training initiatives.

<u>Year</u>	<u>Cancelations Received</u>	<u>Out Of Compliance</u>	<u>Notes</u>
2013	1	0	
2014	2	1	Unknown
2015	3	1	Deceased
2016	2	2	Moved Out of State

2018	4	0	
2019	14	1	Moved Out of State
2020	19	1	ISP Notified
2021	20	0	
2022	21	10	Moved (7) / Deceased (3)
2023	23	0	
2024	4	0	

Notification

In response to the survey and discussions at City Council meetings we are transitioning to Muni-Web notification system for text messaging. Available now is the text notification system.

Please remember we will put out text messages regarding emergency or urgent need to know items such as road blockage due to accidents, major events and safety concerns – robberies, residential burglaries, etc. We’ll continue to use X, but tweets will be for outreach matters – Library Discussion, Cop on Top, Coffee with a Cop, Shop with a Hero, National Night Out and other outreach activities and public service announcements.

CITY OF DARIEN

**EXPENDITURE APPROVAL LIST
FOR CITY COUNCIL MEETING ON
March 18, 2024**

Approval is hereby given to have the City Treasurer of Darien, Illinois pay to the officers, employees, independent contractors, vendors, and other providers of goods and services in the indicated amounts as set forth.

A summary indicating the source of funds used to pay the above is as follows:

General Fund			\$729,867.30
Water Fund			\$639,077.87
Motor Fuel Tax Fund			\$7,644.04
Stormwater Management Fund			
Water Depreciation Fund			
Special Service Area Tax Fund			
Impact Fee Expenditures			
Capital Improvement Fund			\$50,687.31
Cannabis Fund			
Federal Equitable Sharing Fund

AGENDA MEMO
City Council
March 18, 2024

ISSUE STATEMENT

A resolution accepting a proposal from Standard Equipment for the purchase of a new 2023 model Vactor 2100i Fan Sewer Cleaner fleet truck for hydro excavations of buffalo boxes, main line valves, fire hydrant and utility pot holing, storm sewer basin cleaning and storm sewer main line jetting in an amount not to exceed \$548,000.00.

RESOLUTION

BACKGROUND

Throughout the years, the City has utilized the services of a vacuum/jetting truck throughout the City for maintenance and emergency situations of such equipment. The mobile vehicle has more recently been utilized to repair buffalo boxes, (water shut off valves at the exterior of the property) during the meter removal and replacement program. During the lease of the equipment it was utilized to assist in water main breaks and valve removal and replacement as a hydro excavator. Through the course of years prior to the City leasing the equipment, the City Staff has utilized such equipment from our neighboring community as available and or contacted limited vendors to perform emergency services for jetting on storm sewers.

The versatile equipment would allow Staff to operate in a more efficient manner, pending the type of excavation required. For example, the hydro excavation allows Staff to pothole an identified area to confirm a water leak through a non-destructive excavation, compared to a backhoe excavator. This reduces the amount of labor and restoration required especially during an investigative stage. This example only cites one of many as the application applies to sink holes in storm water infrastructure and determining condition of pipes for future replacement.

Today's infrastructure continues to be maintained underground and includes; fiber optic, direct burial, high voltage, secondary voltage cables, gas mains and services and an area with high pressure petroleum pipelines. The City's watermain and storm sewer infrastructure in today's environment tends to compete with the underground space thus exacerbating conventional excavation methods. The equipment will assist in excavations, routine and emergency to safely identify other infrastructure prior to a full excavation and again potentially reduce the limits of the destructive methodology.

The equipment will continue to provide savings through eliminating or reducing excavated spoils, backfill material, hauling, dump expenses and restoration. Further, the equipment will serve as vac-all and jetter to maintain storm sewer infrastructure through an upcoming scheduled catalogue.

Staff has recently completed research on the equipment and has determined that the Vactor is the optimal equipment of choice for the City of Darien. Attached and labeled are additional documents as it relates to the equipment:

Attachment A - Vactor versus Vacon

Attachment B - Local Vactor References

Attachment C - Staff Review-Email Correspondence

The City has maintained a lease with EJ Equipment for the last two years on the **Vac-Con** unit. The unit is also a 2023, model and was made available for purchase to the City. The price of the vactor to the City was \$484,535 and included \$43,350 of rental rebates. A brand new 2024 model with similar components was priced with joint purchasing credits at \$652,261.

The City had engaged with Standard Equipment for a competitive comparison of their version of the vac-all truck, referred to as the **Vactor**. The Staff had met with the representative of Standard to review specifications and pricing of a Vactor truck. Upon review of the research it was determined that the Vactor is the optimal piece of equipment for the City of Darien. The pricing for a new Vactor truck was adjusted to \$550,000 for the FY2024/25 Budget. On February 29, as attached with e-mail correspondence above, a Vactor unit was made available due to a last-minute cancelation. The equipment was valued at \$565,000 and included add-on equipment that the City did not require. Standard Equipment and Staff negotiated that certain add-on equipment would be removed and items that were integral with the cab and chassis would remain. The additional discounting was in an amount of \$17,000, resulting a net cost of \$548,000. Standard Equipment agreed to hold the equipment and pricing until March 19, 2024. Director Gombac updated the City Council at the March 1, 2024 City Council meeting of the opportunity that was provided and that an agenda would be forwarded to City Council for the March 18, 2024, City Council meeting.

In reviewing the FY23/24 Budget with Administrator Vana it was determined that funds were available this year and that the purchase would be made from the following accounts. The FY24/25 Budget was adjusted to remove the line items for the equipment.

ACCOUNT NUMBER	ACCOUNT DESCRIPTION	PROPOSED EXPENDITURE
02-50-4815	Equipment	\$274,000
01-30-4815	Capital Equipment	\$274,000
	Total	\$548,000

STAFF RECOMMENDATION

Accepting a proposal from Standard Equipment for the purchase of a new 2023 model Vactor 2100i Fan Sewer Cleaner fleet truck for hydro excavations of buffalo boxes, main line valves, fire hydrant and utility pot holing, storm sewer basin cleaning and storm sewer main line jetting in an amount not to exceed \$548,000.00.

COMMITTEE RECOMMENDATION

Due to timing this item was not reviewed by the Municipal Services Committee and is being forwarded to New Business for the March 18, 2024 City Council Meeting for formal consideration.

ALTERNATE CONSIDERATION

As directed by the City Council.

DECISION MODE

This item will be placed on the March 18, 2024 City Council agenda for formal consideration.

Standard Equipment

EJ Equipment

Vactor 2100i	Vac-Con - PD3612 HEN
2025 Freightliner 114SD	2024 Freightliner 114SD
Vactor has Sourcewell Purchasing Cooperative Pricing – Standard Equipment is the dealer in our area.	EJ Equipment has the NWMC Suburban Purchasing Cooperative Contract with base price for the 12 Cu. Yd. Model listed at \$621,024.00 Vac-Con has Sourcewell Purchasing Cooperative Pricing – EJ Equipment is the dealer in our area.
\$548,000.00 negotiated price for the unit down from \$565,000.00 price per build spec. Customer backed out due to not being able to secure financing.	\$484,535.00 negotiated price for the unit we are renting because they are applying 3 months of the rental funds to the \$527,885.00 Base Price.
New Build Price for exact options we are getting on the proposed unit is approx. \$585,000.00 - \$600,000.00. If we got a lot more options on it we would still be under \$652K quoted for a new Vac-Con.	New Build price quoted at \$652,261.00. We never sat down with EJ to go over options we would want to select. The unit that we were renting was pretty basic and didn't have many options so realistically we would be higher than this for a brand new build.
Freightliner Warranty – <ul style="list-style-type: none"> • Basic 1 year 100,000 miles • Cummins Engine 2 year warranty • Allison Transmission 3 year warranty 	Freightliner Warranty – <ul style="list-style-type: none"> • Basic 1 year 100,000 miles • Cummins Engine 2 year warranty Allison Transmission 3 year warranty
Vactor Warranty – <ul style="list-style-type: none"> • Basic 1 year warranty • Fan – 5 year warranty • Debris Body – 5 year warranty • Water Tanks – 10 year warranty • Water Pump – 2 year warranty 	Vac-Con Warranty – <ul style="list-style-type: none"> • Basic 1 year warranty • Debris Body – 5 year warranty • Vacuum Compressors – 5 year warranty • Auxiliary Engine Drive System – 5 year warranty • Water Tanks – 10 year warranty
Estimated Typical Maintenance Estimate is approx. \$10k. First year is estimated to be lower.	Estimated Typical Maintenance Estimate is approx. \$10k. First year is estimated to be lower.
Dual Stage Fan Suction System – Fans are made from Aluminum and are riveted together. System is designed like an airplane engine fan and allows for some flex. This is much more forgiving than the PD Blower System. Repair if damaged is approx. \$10-\$15K.	Positive Displacement Suction System (PD Blower) – designed with very little tolerance in between the 2 figure 8 globes that spin to create the suction. Any debris inside of there will warp the globes leading to approx. \$30-\$40k repair.
Variable Speed 80 gpm Pump – only pumps what the system is calling for. Pump only has one moving piston and two cylinder heads. Vactor makes pump for themselves. Only pumps amount of water that is being called for by system depending on use. Controls the stroke of the pump to limit unnecessary wear.	80 GPM FMC pump – Non variable speed so pump runs full bore all the time and sends excess water back to tank. A lot of wear and tear which isn't good for the 50+ wearable internal components. Vac-Con purchases pump from another company.

<p>The air flow design takes air from the back of the debris tank and directs it back to the Vacuum System (fan in this case). Cyclone Separators help remove any additional debris to help keep the Dual Stage Fans clear of debris.</p>	<p>The air flow design takes air from the front of the debris tank which can allow for debris to fall down into the suction line and be taken to the Vacuum System – PD Blower which will cause damage to system.</p>
<p>Ex-Ten Steel debris tank</p> <ul style="list-style-type: none"> • made for enclosed spaces • salt/corrosion resistant • not designed to rust 	<p>CorTen Steel Debris Tank</p> <ul style="list-style-type: none"> • not designed for enclosed spaces • not salt/corrosion resistant • designed to rust
<p>2 – 6” Knife Valves for Decanting</p> <ul style="list-style-type: none"> • 3 o’clock • 6 o’clock (this will allow for more water to be left off the truck before having to dump debris) 	<p>1 – 6” Knife Valve for Decanting</p> <ul style="list-style-type: none"> • Mid-door mounted (we are having issues decanting all the way with this)
<p>Rear Door Full Swinging Screen – helps keep debris from clogging up the decanting valves allowing more water out, keeping debris in the tank</p>	<p>Screen only covers the Debris Tank Drain – this is becoming clogged up leading to issues decanting.</p>
<p>Debris Body designed to middle load debris by deflecting air and separating debris. This means more water makes it to the back, which makes it easier to decant. Also, are able to get more debris in there since it is loaded as if you were using a conveyor system to stack it.</p>	<p>Debris body is designed to back load so all the debris is thrown to the back door and then loaded at an angle toward the front. Inefficient at loading meaning you are not getting full truckloads and since there is a lot of debris by the back door where the decant valve is, it often is clogged up.</p>
<p>Front hose reel extends out 15” and then can pivot to allow access from center of truck still. Keeps operator in front of truck.</p>	<p>Front hose reel extension puts operator out to the side which could put the operator at risk.</p>
<p>Centrifugal Cyclone Separators – help separate out fine/small solid materials before they enter the fan.</p>	<p>No pre debris separator on proposed setup</p>
<p>Belly Pack Remote Control – allows operators to fully operate truck remotely. Many users say this is a great safety feature as it allows the user to see the work site instead of being stationed at the front of the truck.</p>	<p>Only has front of the truck controls on proposed unit.</p>
<p>Hose Guide wind system – helps ensure jetting hose goes back on the reel safer, neater and with less damage</p>	<p>Nothing on the proposed unit.</p>
<p>Proposed unit is 1,500 gallon water tanks – allows us to stay on job longer without needing to fill up.</p>	<p>Proposed unit is 1,300 gallons of water</p>

Water tanks are made of aluminum - they dent instead of rupturing if damaged	Water Tanks are made of plastic and don't hold up well to accidental impacts especially when they happen in cold weather.
Emergency Stop System – only shuts down the vacuum and water pump and brings truck to an idle.	Emergency Stop System shuts down the entire truck – this is not recommended by any vehicle manufacturer and equivalent to stopping the truck while driving 80 mph.
Rotatable Boom Inlet Hose – allows operators to rotate the hose to prolong life of this wearable item. This item takes a lot of impact so having the option to extend the lift is very important.	Not rotatable at all – we have had to pay to replace them on 2 rental units from EJ in the past few years.
Better Safety Lighting Package (strobes) – Federal Signal lights includes more strobes overall for better visibility. Includes more LED work lights for better visibility and added safety	
More suction tube storage racks were optioned on this unit	
Digital Debris and water level gauges that are incorporated onto the belly pack controller and the operator station on the front of the truck	Mechanical debris and water level gauges.
QR codes on major system components so operators and mechanics can scan and review issues as they come up. Can reference these for Operations reminders	Operators manual
60" dump height – can dump directly into certain roll off dumpster containers.	Cannot dump into dumpsters with current unit.
Run Dry pump and Air purge Winterization system – multiple ways to winterize the system. Run dry pump allows for easy winterization quickly if needed. Also means we cannot damage the pump if it is accidentally turned on without the truck being filled with water	Only Air Purge Winterization System If pump is ran dry it will become damaged.
Vactor is owned by Federal Signal – Illinois based company Unit is built in Streator IL If Standard Equipment ever closed their doors, Vactor offers full-service in Streator at their plant.	Vac-Con is a FL company and is built there. If EJ Equipment ever closed their doors, we would have to find different service option. Next closest dealer is in Indianapolis (I assume that they offer service but don't know for sure).

Standard Equipment will come out at delivery and provide basic operator and maintenance training to staff.	EJ Equipment will come out at delivery and provide basic operator and maintenance training to staff.
In depth Operator and Mechanic Training is available in Streator for Free through Vactor. (might need to budget for hotel stays as it is a 2 or 3 full day training)	Never advised of any additional training options.

Attachments: Vactor 2100i vs VacCon.docx; Local Vactor references.pdf

Dan,

As a recap we are getting a great opportunity with the truck being presented by Standard Equipment. We are getting all the major system components that we want and many options that we wanted to select all at a discounted price. Standard Equipment has worked with staff to really listen to what we want and are looking for and help guide us through all the options and provided us several different options including building a Vactor which we could have accomplished for the \$550k budgeted price. When the other customer backed out it presented an opportunity for us to secure a truck that had even more options that we had originally thought we could afford given the \$550k price point. Also, was just notified that there is a 3% cost increase from the manufacturers that will go into effect this week (may have already done so) on any new cab and chassis orders).

I am not saying that Vac-Con doesn't build a nice truck or that EJ isn't great to deal with. Quite the opposite is true especially in regards to EJ. City had not dealt with Vac-Con on any purchases to date. We several pieces of equipment from EJ and they have always treated the City very well. With this piece of equipment we just found out more information that really led us to seeking other options that would better suit the City. Long term care and maintenance concerns really played a large factor in this decision. Vac-Con offers units with some of the major system components that we want we just can't get them for the price we are getting the unit from Standard Equipment for. We would have to build it and we see that minimum cost is \$100k higher than we are getting this truck for based on the quote provided by EJ Equipment.

See attached document going over many of the requested items below. A few follow up points not included on that are:

In speaking with a few local Municipalities that have Vactor units is they truly seem to love them.

- They have been referred to as the Cadillac of the Combination Sewer Truck.
- They have stated that the support from Standard Equipment and Vactor and is 2nd to none.
- The ability to send people to Streator for both Operator and Mechanic training for **FREE** is a huge benefit (I did put that on my sheet with a note that we may need to budget for travel expense like hotel as it is a 3 day class that is full day but that is something we can discuss further). For the training there is an annual training list that comes out every year and we can sign people up for available classes.
- The Vactor Trucks seem to be very Operator orientated which leads to happy and safer workers
- There seem to be more attention to detail and design with the Vactor Unit.
 - Conversations with Standard Equipment indicate that Vactor has a very large Engineering Department and they spend a lot of time reviewing a cab and chassis before it rolls into the plant to be built. They are ensuring that everything is correct and all options are right.
- Due to being owned by Federal Signal, Vactor has a lot of purchasing power in cab & chassis from the manufacturers. This allows them to have the cab & chassis setup directly from truck manufacturer for their equipment to be mounted/installed. No drilling or welding equipment to the frame of the truck is done after it leaves the truck manufacturer. This allows Vactor to roll a cab & chassis into their assembly plant and have it built in 2 days (working 5-6 stations inside the plant – one on all 3 shifts).
 - Vac-Con bay builds the trucks like how our plow trucks are built. Not that there is anything wrong with this method it just isn't as efficient and there is not as much consistency and there is room for error with this method.

I have attached a customer list provided by Standard of some surrounding Municipalities. This is not all inclusive. They can provide more if needed as well.

Upon your review of these documents and information please don't hesitate to let me know if you would like to discuss further or have any questions or additional follow up.

Thanks,

Kris Throm

Subject: RE: External - RE: New Vactor / Freightliner proposal

Good evening, Dan, and thank you for the commitment to purchase the New Vactor as described in your email below. I have received approval from the President and CEO of Standard Equipment Company, Jerry Donlon, to confirm that your email below has been accepted and the proposed Vactor has been assigned to the City of Darien at the agreed price of \$548,000.00.

I have attached a full specification sheet for your purchased Freightliner chassis, vin # 1FVH63FESPHUC9813, and the proposal of your purchased Vactor, serial # 23-04V-21705.

I will have a complete pre delivery inspection completed on your new Vactor prior to the March 19th delivery date and have the unit fully cleaned and detailed.

Your Municipal Services staff has been very diligent during your City's search for the right piece of equipment and the options required to meet your City's needs while maintaining an understanding of the costs associated with the product. It has been a pleasure to work with your department on this opportunity and I look forward to providing this essential piece of equipment to the City of Darien in the very near future. Please do not hesitate to contact me at your convenience with any questions of if you need any additional information.

Sincerely,

Mike O'Connor – Account Manager
Standard Equipment Company

Subject: External - RE: New Vactor / Freightliner proposal

CAUTION: This email originated from outside of Standard Equipment Company. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon Mike,

Upon discussions with Kris, I understand that a 2023 Vactor unit that exceeds our requirements was made available due to a last minute cancelation. I further understand that the joint coop value is \$565k, (2024 \$585k value) and it has been negotiated with our Department at cost to the City for \$548k.

We would appreciate if you could forward a proposal with the specs sheet and we are committed to the purchase. While our 2024/25 Budget starts May 1, our Budget approval is not until April 1. We will be proceeding with an agenda memo to our City

Council for the pre-budget purchase on March 18, and a check in the amount of \$548 will be ready on March 19. We will take delivery on that date as well.

Please confirm that this email serves as a commitment to the purchase. Please let me know if there are any further questions.

Sincerely,

Daniel Gombac

Director of Municipal Services

Subject: Fwd: New Vactor / Freightliner proposal

Dan,

As discussed earlier regarding Vactor opportunity that just became available due to a customer backing out. We saw the unit today and it meets all requirements. It seems to be a great deal and if we could move forward on this I think it is the best option even over building one new. Let me know if this is doable.

Thanks,

Kris Throm

Subject: New Vactor / Freightliner proposal

Kris,

Attached is a proposal for the Vactor 2100i combination sewer cleaner we reviewed this morning at your facility. As I mentioned, this was a sold unit, however, the customer has not been able to secure financing, so I am able to offer it for sale at this time and can have it prepped for prompt delivery after receipt of order.

Notes:

- The Vactor module includes a full factory warranty that begins when the unit is delivered to you.
- The Freightliner chassis has a full factory warranty that begins when the truck is delivered to you.
- The 2023 Sourcewell pricing on this unit was \$565,000.00.
- I was able to provide a \$17,000 discount if the following requirements are met:
 - Receiving a formal commitment to purchase the unit, at the proposed price, no later than 3/1/23.
 - Receiving payment in full no later than the week of 3/18/23.
 - Taking delivery of the unit when payment is made.
- A new, 2024 Vactor, equally equipped, with a 2025 Freightliner chassis would have a Sourcewell cost of approximately \$585,000 and have an approximately 6-month lead time.

- The following will be accepted as a formal commitment to purchase:
 - Village purchase order
 - Signed copy of the attached proposal, with a letter stating when payment will be available.
 - A letter on Village letterhead stating a commitment to purchase the proposed Vactor 2100i with dates on when a Purchase Order will be issued and when Payment will be processed.

I greatly appreciate all your efforts on this purchase and look forward to delivering your new Vactor in the very near future. If you have any questions or require any further information, please contact me at your convenience.

Sincerely,

Standard Equipment is pleased to present The City of Darien with the following quotation for a New Vactor 2100i Fan Sewer Cleaner mounted on a Freightliner 114SD Chassis.

Dealership Information

Family-owned and operated since 1969, Standard Equipment Company provides environmental equipment solutions for municipalities, contractors, and companies. We have built a reputation for excellence by offering the finest new equipment, a large selection of parts, excellent service, and unparalleled customer support. We customize environmental equipment solutions for every situation by putting our customer's needs first. Standard's greatest ability is dependability.

Manufacturer Information

Vactor's origins as an American manufacturer go back more than a century, and their expertise and leadership in sewer cleaning date back more than fifty years. In that time, they have been more than a manufacturer. As a pioneer and an innovator, they have found ways to help communities save money, improve the quality of life for people, and improve the productivity and safety of the individuals who operate their equipment.

This commitment to innovation inspired them to create the very first combination sewer cleaner in 1969.

Today, they remain driven to bring you the safest, most capable, versatile, quietest, and most efficient equipment possible. Durable, reliable equipment that delivers the quality and value you deserve and should demand. Equipment you can count on today, tomorrow, and years into the future.

Vactor 2100i

It employs advanced technology that not only enhances the performance of the equipment but the individuals who operate it. **Less fatigue. More comfort. Push button operation. Greater precision. Superior power and performance. Controls that truly put the operator in control. All of this in a system designed to be the ultimate in ruggedness, reliability, simplicity, and value.**

- **IntuiTouch® one-touch in-cab controls** for PTO/Transfer Case activation at the touch of a button
- **IntuiTouch control panel** that combines all cleaning system functions into one, articulating control panel
- Low maintenance **Jet Rodder® Water Pump** provides smooth continuous flows and optional “jackhammer” action
- Multi-Flow system offers operation at lower RPM for better fuel economy without sacrificing performance, less component wear and greater product life
- Modul-Flex design provides for maximum capacities and optimum weight distribution on every truck
- Quieter engine design, high ground clearance, lower water fill point and other features to improve the operator experience
- Positive Displacement model for pulling material long distances.
- Choose from over 100 precision-engineered enhancements to fully customize your 2100i

Equipment Details

2100i Single Engine Fan, Dual Stage, 12-yard Debris, Combo Unit
Stock Number – Z001636
Serial Number – 23-04V-21705

Equipment Features

- Additional Water, 1500-Gallons Total
- Vacuum, Single Engine - Dual Stage Fan
- 80 GPM/2500 PSI Jet Rodder pump
- Under Engine Toolbox
- Aluminum Fenders
- Mud Flaps
- Electric/Hydraulic Four Way Boom
- Color Coded Sealed Electrical System
- Intuitouch Electronic Package
- Double Acting Hoist Cylinder
- Handgun Assembly
- Ex-Ten Steel Cylindrical Debris Tank
- Flexible Hose Guide
- (3) Nozzles with Carbide Inserts with Rack
- Suction Tube Storage
- 1" Nozzle Pipe
- 10' Leader Hose
- Flat Rear Door with Hydraulic Locks
- Dual Stainless-Steel Float Shut Off System
- Debris Body Vacuum Relief System
- Debris Deflector Plate
- 60" Dump Height
- Debris Body-Up Message and Alarm
- Low Water Indicator On Screen with Alarm and Water Pump Flow Indicator
- 3" Y-Strainer at Passenger Side Fill with 25' Fill Hose
- Additional Water Tank Sight Gauge
- Liquid Float Level Indicator
- Digital Water Pressure Gauge
- 180 deg. Non-Extending Boom
- Front Joystick Boom Control
- Boom Hose Storage
- Boom Out of Position Message and Alarm
- Rodder System Accumulator - Jack Hammer on/off Control with manual valve
- 3" Y-Strainer at the Water Pump
- Midship Handgun Coupling
- Chassis Engine Cooling Package
- Side Mounted Water Pump
- Digital Hose Footage Counter
- Hose Reel Manual Hydraulic Extend/Retract
- Hose Reel Chain Cover

Equipment Features Continued

- Hydraulic Extending 15", Rotating Hose Reel, 1" x 800' Capacity
- Hydraulic Tank Shutoff Valves
- Tachometer/Chassis Engine with Hourmeter
- Water Pump Hour Meter
- PTO Hour Meter
- Hydraulic Oil Temp Alarm
- Circuit Breakers
- LED Lights, Clearance, Back-up, Stop, Tail & Turn
- Tow Hooks, Front
- Tow Hooks, Rear
- Electronic Back-Up Alarm
- Camera System, Rear Only
- 8" Vacuum Pipe Package
- Emergency Flare Kit
- Fire Extinguisher 5 Lbs.
- Debris Body Washout
- Rear Door Valve Flushout
- 6" Rear Door Knife Valve with Camloc, 3:00 position
- 6" Rear Door Knife Valve with Camloc with Port, 6:00 position
- Full Rear Door Swinging Screen
- Centrifugal Separators (Cyclones)
- Folding Pipe Rack, Curbside, 8" Pipe
- Folding Pipe Rack, Streetside, 8" Pipe
- Folding Pipe Rack, Rear Door, 8" Pipe
- Subframe Mounted, 2-Pipe Rack, 8"
- Rear Door Splash Shield
- Lube Manifold, with Lube Chart
- Air Purge
- Digital Water Level Indicator
- Digital Debris Body Level Indicator Tied to Vacuum Relief
- 180 deg. 10ft Telescoping Boom
- Bellypack Wireless Controls with hose reel controls, 2-way communications, and LCD Display
- Rotatable Boom Inlet Hose
- Telescopic Boom Elbow, Nickel Plated
- Cold Weather Recirculator, PTO Driven, 25 GPM
- Hydro Excavation Kit - Includes Lances with Shield, Nozzles, Storage Tray, and Vacuum Tube
- Fan Flushout System
- 600' x 1" Piranha Sewer Hose 2500 PSI in lieu of STD
- Hose Wind Guide (Dual Roller), Auto, Power Indexing
- Rodder Hose Pinch Roller
- High Pressure Hose Reel
- Rodder Pump Drain Valves
- Front Hose Reel Tool Storage
- Rear Directional Control, LED Split Arrowboard
- Wireless, Waterproof, Rechargeable, Handheld, LED Spot Light with 12V Charger
- 14 Light Package, 14 Federal Signal Strobe Lights, LED

Equipment Features Continued

- Worklights (2), LED, Boom
- Worklight, LED, Operators Station
- Worklight, LED, Hose Reel Manhole
- Safety Cone Storage Rack - Post Style
- Toolbox, Front Bumper Mounted, 16 x 12 x 18 with (2) LED Side Markers
- Toolbox, Behind Cab - 16w 30h x 96d
- Toolbox, Driver Side Chassis Frame, 24w x 24h x 24d
- Toolbox, Driver Side Subframe, 48w x 20h x 12d
- Module Paint, DuPont Imron Elite - Sanded Primer Base
- Vactor 2100i Body Decal, Standard
- Vactor/Guzzler Logos - Applied
- Vactor Standard Manual and Online Version

Chassis Information:

- Chassis Make – Freightliner
- Chassis Model – 114SD
- Chassis Year – 2023
- VIN – 1FVHG3FE5PHUC9813
- Chassis Weight Rating – 66,000 GVWR,
- Chassis Powertrain – 370 Horsepower, Automatic Transmission, SFA Tandem Axle 6x4
- Chassis Color – White
- Body Color – White

Item Description	Delivered Cost
New Vector 2100i Sewer Cleaner 2023 Freightliner 114SD Chassis	\$548,000.00

Sourcewell contract 101221-VTR

Terms and Conditions

1. Multiple unit orders will be identical to signed proposal. Changes or deviations to any unit of a multiple unit order will require a new signed proposal.
2. Chassis specifications and data codes for customer-supplied chassis must be submitted to and approved by Manufacturer prior to submittal of customer purchase order.
3. All prices quoted are in US Dollars unless otherwise noted.
4. All price quotations are for informational purposes only. Prices are subject to change without notice. Final prices will be reflected on the final invoice. Comparable components may be substituted for those listed on any quote or specification. Any weights and dimensions are estimates and are provided for informational purposes only and are not guaranteed. Non-factory approved Modifications may void the warranty in whole or in part. Due to the nature of specialty custom equipment, all sales are final. By acceptance of this quote by signature, letter of intent, or issuance of a purchase order the purchasing party understands that this agreement supersedes any conditions that the purchasing party may provide as terms of purchase.
5. Vactor Manufacturing and Chassis limited warranty included.
6. Unit and chassis are subject to prior sale.
7. Price does not include state or local taxes.
8. Price includes title and plating fees.
9. Payment is due at the time of delivery.

Total Quoted Price: \$548,000.00

IN WITNESS WHEREOF, the parties hereto agree to enter into this purchase agreement.

RULES FOR COMPLIANCE WITH PUBLIC COMMENT REQUIREMENTS OF THE ILLINOIS OPEN MEETINGS ACT

I. PURPOSE OF RULES.

The purpose of these Rules is to comply with the requirement of Section 2.06 of the Illinois Open Meetings Act that a public comment section be provided at each meeting subject to the Open Meetings Act.

II. DEFINITION OF “PUBLIC BODY” or “BODY.”

For purposes of these Rules, the term “Public Body” or “Body” shall mean the City Council, any Committee of the City Council, and any Board and Commission established by the City Council.

III. RULES GOVERNING PUBLIC COMMENT.

A. Unless otherwise allowed by a majority vote of the Body, the public comment periods shall be as follows:

1. For the City Council, as set forth on the attached **Agenda template**.
2. For Council committees and advisory committees, at the conclusion of the meeting immediately before adjournment. At the direction of the Body, the floor may be opened for public comment in conjunction with specific agenda items.

B. Individuals seeking to make public comment to the Body shall be formally recognized by the Chair.

C. Individuals addressing the Body shall identify themselves by name, but need not provide their home address.

D. Individuals addressing the Body shall do so by addressing their comments to the Body

itself and shall not turn to address the audience.

E. Public comment time shall be limited to three (3) minutes per person.

F. An individual will be allowed a second opportunity to address the Body only after all other interested persons have addressed the Body and only upon the majority vote of the Body.

G. In the case of a special meeting, public comment will be limited to subject matters germane to the agenda of the special meeting.

IV. PUBLIC HEARING REQUIREMENTS.

Additional public comments periods will be allowed as required by law in the case of public hearing, subject to the same time constraints.

Approved by a Motion on November 17, 2014
